RHEOSEPT-SD LM

Alcohol-based and fast-acting disinfectant for the food processing industry

Product description

Application solution for fast and residue-free wiping and spray disinfection with alcohol. The product has a high level of skin safety and compatibility (Dermatest result: "excellent"). For fast-acting and additional disinfection in the food processing industry and other hygienically sensitive areas. Use biocides safely. Prior to use, please pay careful attention to the labelling and read the product information.

Fields of application

For cleaning and disinfection in the food processing industry and kitchens.

Dosing instructions

Apply the liquid and ready to use solution on a cloth and wipe the dry surface evenly. Use a direct spray procedure only when not inevitable. Depending on surface structure

20 to 50 ml per m². To rinse with water afterwards is generally not necessary. The residence time is to last minimum 1 minute. Do not use on acrylic (plexiglass). Detach surface from contamination and wetness before disinfection. Proteins decrease the disinfection effect considerably. The cleaned and disinfected surfaces can be used for the food processing after full evaporation in all conscience.
